## **CPC Continues to Enhance Polypropylene Plastic Coupling Series**

*New configurations make it simple to integrate couplings into OEM equipment*

**St. Paul, Minn. – August 25, 2016** – [CPC \(Colder Products Company\)](#), the leading provider of quick disconnect couplings and fittings for plastic tubing, announces the further expansion of its [HFC12 Series](#) quick disconnect couplings with 14 new panel mount options that allow OEMs to easily integrate flexible tubing connections directly into their devices or equipment. The HFC12 Series and its panel mount inserts are available in polypropylene for enhanced chemical resistance and are gamma sterilizable.

“The new panel mount versions of the HFC12 couplings offer both inline and elbow hose barb terminations. Combined with the valved and non-valved panel mount configurations, the HFC12 Series provides the design engineer with multiple options to easily incorporate into a device,” says Tim Jacobson, senior product manager for industrial markets at CPC. “While the integral terminations make it simple for the OEM to assemble tubing internal to the device, the panel mount feature simplifies connecting external tube sets for the user.”

The HFC12 Series couplings have flow comparable to many 1/2" flow couplings in a 3/8" body size. Compact and lightweight, HFC couplings replace bulky and heavy metal ball-and-sleeve couplings in a wide range of applications, including chemical handling equipment, food and beverage devices, and in vitro diagnostics (IVD) systems. An ergonomic design and a large, shrouded thumb latch pad produce a coupling that is easy to grip and simple to operate.

For more information about how your fluid handling application will benefit from integrating panel mount inserts, or any of the other 10,000+ innovative connection solutions CPC offers, visit online at [cpcworldwide.com](http://cpcworldwide.com).

### **About CPC**

CPC (Colder Products Company) is the leading provider of quick disconnect couplings, fittings and connectors for the life sciences, bioprocessing, industrial and chemical handling markets. CPC is a business unit of Downers Grove, IL based Dover Corporation. For a free catalog or more information, contact: Colder Products Company, 1001 Westgate Drive, St. Paul, MN 55114. Phone: 651-645-0091. Toll-free: 800-444-2474. Fax: 651-645-5404. Web: [cpcworldwide.com](http://cpcworldwide.com)

CPC, Colder Products, Colder Products Company and Dover are registered trademarks with the U.S. Patent & Trademark office.
